COMPLAINT

JURISDICTION

1. This action makes claims for damages for violation of the laws of the State of Alabama. The Plaintiff specifically does not claim any damages for violation of federal statutes or law.

VENUE

2. Venue of this action is proper in Covington County, Alabama, because many of the wrongful acts which caused the Plaintiff's injuries and damages occurred in Covington County, Alabama, and the Plaitniff was injured in Covington County, Alabama.

PARTIES

- 3. PACTIV Corporation does business by agent in the State of Alabama and may be served through their registered agent for service of process, The Corporation Company, 2000 Interstate Park Drive, Suite 204, released in Montgomery, AL 36109.
- 4. Louisiana-Pacific Corporation does business by agent in the State

 of Alabama and may be served by service on their registered agent forms is locat
 service of process, United States Corporation Company, 150 South Perry

 Street, Montgomery, AL 36104.
- 5. D & D Lumber Company, Inc. d/b/a Lockhart Lumber Company Lumber of the Company Lumber

by service on its officers Paul S. Allersmeyer and John S. Hoenigmann, 60 Wall Street, New York, NY 10005.

6. The Plaintiff, Thomas Douglas, as Administrator of the Estate of Sebera Gayle Douglas, deceased, is a resident of Covington County, Alabama.

BACKGROUND

- 7. Sebera Gayle Douglas suffered injuries and damages which proximately caused her death by exposure to toxic chemicals and hazardous wastes which were released into the environment from a wood treatment (177), assufacility formerly owned and operated by the Defendants in Covington County, Alabama.
- 8. The facility is located in the town of Lockhart, Alabama, and is core and adjacent to the town of Florala, Alabama, on a site formerly occupied by the Before Lockhart Lumber Company.
- 9. Lockhart Lumber operated the wood treatment facility for a reasonable number of years before its acquisition by PACTIV. Emissions by Lockhart Lumber proximately contributed to cause Plaintiff's injuries and damages.

- 10. Sebera Gayle Douglas resided in the Florala/Lockhart community for most of her life.
- 11. Sebera Gayle Douglas also was present at other homes, businesses, places of employment, churches and/or schools in the Florala/Lockhart area.
- 12. On or about March 6, 1979, TMA Forest Products Group, a division of Tennessee River Pulp and Paper Company, a subsidiary of Packaging Corporation of America or PACTIVE Corporation a/k/a PACTIV (hereinafter referred to as "PACTIV"), assumed ownership and began operation of the to be a wood treatment facility.
- 13. Defendants engaged in the business of treating lumber and pine ministrates wood poles with creosote and pentaclorophenol.
- 14. Energy for the Defendants' wood treatment operation was partly obtained by burning wood wastes and scrap bark in three wood waste boilers which were used to create steam and provide heat and energy for PACTIV's tree bases sawmill and wood treatment operation.
- 15. The boilers used by Defendants were not licensed as hazardous or toxic waste incinerators.

- 16. The boilers used by Defendants were not designed or intended to be used as hazardous or toxic waste incinerators.
- 17. The boilers used by Defendants at the facility would not have safely disposed of any hazardous or toxic waste burned in them.
- 18. The facility also operated a teepee burner which was used to burn waste or scrap wood. Use of the teepee burner was discontinued by PACTIV on or about February 21, 1980.
- 19. The Secretary of Health and Human Services maintains a list of substances known to be carcinogens, or which may be reasonably metally at anticipated to be carcinogens.
- 20. The Administrator of the Environmental Protection Agency, in cooperation with the Agency for Toxic Substances and Disease Registry and the National Toxicology Program, identifies a list of those hazardous wastes which are carcinogens, mutagens, teratogens, or endanger human health.
- 21. The United States Environmental Protection Agency, Office of Pesticides Program, also maintains a list of chemicals evaluated for carcinogenic properties.

- 22. The Secretary of Health and Human Services and the United States Environmental Protection Agency lists creosote as a probable human carcinogen.
- 23. Creosote is a mixture of chemicals and is probably carcinogenic to humans.
- 24. The creosote mixture used by the Defendants at their Florala/Lockhart facility contained chemicals which are known to cause cancer.
- 25. The Secretary of Health and Human Services and the United States Environmental Protection Agency lists pentaclorophenol as a probable of the American Human carcinogen.
 - 26. Pentaclorophenol is probably carcinogenic to humans.
- at the subject wood treatment facility was also contaminated with a with a dioxin/furans.
- 28. Dioxin and/or dioxin/furans contaminates in pentaclorophenol used at the facility included tetrachlorodibenzo-p-dioxins, hexachlorodibenzo-p-dioxins,

heptachlorodibenzo-p-dioxins, tetrachlorodibenzo-furans, pentochlorodibenzo-furans, hexachlorodibenzo-furans, heptachlorodibenzo-furans, octachlorodibenzo-furans and optachlorodibenzo-p-dioxins.

- 29. The pentaclorophenol used by Defendants at the Florala/Lockhart facility contained chemicals which are known to cause cancer.
- 30. The creosote used for wood treatment at the wood treatment facility by Defendants was contaminated with polycyclic aromatic hydrocarbons (PAHs).
- at the wood treatment facility was further contaminated with or contained water whe benzene.
- 32. Benzene is listed by the Secretary of Health and Human Services and United States Environmental Protection Agency as a known human concerning carcinogen.
- 33. The wood treatment chemicals used by Defendants at the subject wood treatment facility also were contaminated with or contained other chemicals which are generally scientifically recognized to be human

carcinogens, to cause birth defects, or to be accelerants and promoters of cancer in humans.

- 34. The Defendants also made use of cooling tower corrosion inhibitors which contained hexavalent chromium.
- 35. The Secretary of Health and Human Services and United States Environmental Protection Agency list chromium (VI) as a known human carcinogen.
- 36. Creosote and pentaclorophenol wood treatment chemicals used by Defendants were dissolved in diesel fuel or a petroleum product. Standinged one
- 37. The wood treatment operation employed by Defendants created one manner or generated waste water when water in wood products was replaced by treatment chemicals in a pressurized treatment cylinder or "retort."
- 38. The waste water created or generated by Defendants was contaminated with toxic or hazardous chemicals from the treatment of toxic chemicals.
- 39. The Defendants further operated or maintained water evaporation and containment areas, or lagoons.

- 40. The Defendants PACTIV and L-P engaged in the air disposal of toxic waste water by maintaining a spray field of spray nozzles which sprayed toxic waste water into the air over disposal lagoons.
- 41. Defendants illegally burned toxic and hazardous wastes from their lagoons and waste disposal pits.
- 42. Beginning November, 1983, Louisiana-Pacific Corporation (herein referred to as "L-P") began ownership and operation of the subject wood treatment facility.
- 43. L-P continued operating the facility with the same ulocal neterm of management in the same manner as PACTIV.
- 44. Within a year after L-P began operation of the facility they began the term using another wood treatment chemical which contained copper, earsenic in the pure and chromium (CCA).
- 45. In addition to the toxic waste that it created, L-Poassumed and entire responsibility to dispose of toxic or hazardous waste left at the facility by endant in PACTIV.

bd. The Desendent L-P

- 46. The Secretary of Health and Human Services and the United States Environmental Protection Agency lists arsenic as a known human carcinogen.
 - 47. Arsenic is known to cause cancer in humans.
- 48. During its term of operation, the Defendant PACTIV sprayed toxic waste into the air.
- 49. During its term of operation, the Defendant PACTIV placed toxic wastes in its boiler and engaged in the burning of toxic waste.
- 50. During the term of its operation, L-P sprayed toxic waste water userial into the air.
- 51. During the term of its operation L-P placed toxic wastes in its boiler and engaged in the burning of toxic waste.
- 52. During its term of operation the Defendant Lockhart Lumber and and first burned toxic waste and emitted toxic chemicals into the air.
- 53. The Defendant PACTIV further burned toxic sludge from their and containment lagoon by putting it in the boilers.
- 54. The Defendant L-P further burned toxic sludge from their toxic waste containment lagoon by putting it in the boilers.

- 55. Defendants engaged in the burning of hazardous wastes which were contaminated with known human carcinogens or with probable human carcinogens and toxic waste.
- 56. The Defendants also used sawdust to filter and contain hazardous and toxic waste.
- 57. The sawdust used by Defendants was contaminated with creosote and pentachlorophenol and associated chemicals.
- 58. The sawdust used for containment by L-P was further contaminated with arsenic.
- 59. The sawdust used for containment by Defendants was burned in the forms.
- and/or burning of toxic and hazardous wastes.
- 61. Weekend or nocturnal burning was less likely to be detected by the elected by the community.
- 62. Defendants sprayed toxic waste into the air which was contaminated with known human carcinogens or probable human carcinogens.

- 63. Certain chemicals of concern were utilized, discharged, disposed, emitted, or otherwise released into the local environment by Defendants at the wood preserving facility.
- 64. The groups of chemicals utilized, discharged, disposed, or otherwise released by Defendants included, but are not limited to, coal-tar creosote, creosote mixtures with carrying liquids such as diesel fuel oil, pentachlorophenol, cooling tower corrosion inhibitors, metals, arsenic, furans and dioxins, as well as particulates containing metallic ions and polycyclic aromatic hydrocarbons (PAHs).
- exposed include off-site migration of wood preservative liquids and waste liquids resulting from wood treatment processes at the facility, off-site migration of particulates, off-site migrations of vapors and gases of chemicals of concern at elevated temperatures, off-site migration of products and by-products of combustion resulting from on-site fires and burning operations and the off-site migration of aerosol droplets containing dissolved concentration of the above referenced chemicals of concern from a variety of on-site process operations.

- 66. The Defendant PACTIV released or caused to be released toxic or hazardous chemicals into the adjacent streams or ditches and thus discharged hazardous toxic chemicals.
- 67. The Defendant L-P caused or allowed the discharge of hazardous chemicals and toxic waste by discharge into adjacent streams or ditches.
- 68. The Defendant Lockhart Lumber released or caused to be released toxic and hazardous chemicals into the streams or ditches and thus discharged toxic and hazardous chemicals.
- 69. Groundwater at the facility has been contaminated by toxic and as created hazardous wastes.
- 70. Groundwater at the facility which is contaminated by toxic and nonselection hazardous wastes has migrated off-site.
- 71. The Defendants released toxic chemicals into the local atmosphere as a result of wood treatment operations and by drips, spills, received leaks, cooling tower discharges and accidents in their waste disposal practices.
 - 72. The Defendants engaged in the discharge of toxic waste fluids.

- 73. The Defendants caused the discharge of toxic chemical vapors, particulates and aerosols into the air.
- 74. The day to day operations of Defendants' wood treatment process resulted in the discharge of toxic waste, hazardous waste and known or probable human carcinogens.
- 75. Defendants used toxic wastes to make roadways and scattered it about the facility roadways.
- 76. Toxic chemicals spread over the facility contributed to a cloud of toxic dust or vapors created by the operation.

 pentachlorophenoi, creosote, (
- 77. PACTIV did not adequately train their employees, management or personnel and did not inform their management, employees or personnel at Lockhar of the dangers associated with the chemicals used in their wood treatment chemical control of the dangers associated with the chemicals used in their wood treatment chemical control of the dangers associated with the chemicals used in their wood treatment chemical control of the dangers associated with the chemicals used in their wood treatment chemicals control of the dangers associated with the chemicals used in their wood treatment chemicals control of the dangers associated with the chemicals used in their wood treatment chemicals control of the dangers associated with the chemicals used in their wood treatment chemicals control of the dangers associated with the chemicals used in their wood treatment chemicals control of the dangers associated with the chemicals used in their wood treatment chemicals control of the dangers associated with the chemicals used in their wood treatment chemicals control of the dangers associated with the chemicals used in their wood treatment chemicals control of the dangers as a specific control of the dangers and the dangers as a specific control of the dangers and the dangers are control of the dangers and
- 78. L-P did not adequately train their employees, management on a street personnel and did not inform their management, employees on personnel of and creek the dangers associated with the chemicals used in their wood treatment facility or operation.

- 79. Lockhart Lumber did not adequately train their employees, management or personnel and did not inform their management, employees or personnel of the dangers associated with the chemicals used in their wood treatment facility or operation.
- 80. Defendant PACTIV was aware of the hazardous nature of pentachlorophenol, creosote and the chemical constituents contained therein.
- 81. Defendant L-P was aware of the hazardous nature of pentachlorophenol, creosote, CCA and the chemical constituents contained gical proposition.
- 82. Defendant Lockhart Lumber was aware of the hazardous nature / disease.

 of creosote and the chemical constituents contained therein. are been are been are
- 83. Both PACTIV and L-P were aware of the hazardous nature of the master that was being a second disposed into ditches and creeks.
- 84. The Defendant PACTIV sold scrap wood which contained wood treatment chemicals for use as firewood in neighboring homes.

- 85. The Defendant L-P sold scrap wood which contained wood treatment chemicals for use as firewood in neighboring homes.
- 86. Pentachlorophenol, creosote, pentachlorophenol constituents, creosote constituents, CCA, CCA constituents, pentachlorophenol, creosote, benzene, PAHs and dioxin/furans have been identified as causing serious and permanent health problems, including, but not limited to, various types of cancer, lung cancer, breast cancer, bone cancer, kidney cancer, liver cancer, Scleroderma, sarcoidosis, gastrointestinal problems, hematological neurological problems, lupus, kidney problems, refemale racitity. reproduction organ disease, reproductive problems, eye disease, skin disease, respiratory disease, sinus problems, coughing, miscarriages, and account account and account account and account and account account account and account account and account account account account account account and account premature births and birth defects. committeed to be exposed in the
- At all times pertinent hereto, Defendants knew or should have 87. known that the treatment process at the subject wood treatment facility is commented. utilized materials which had been identified as hazardous or toxic chemicals and the same states. and that they presented a danger to human health.

- 88. Defendants were aware of the health risks to nearby residents associated with operation of their wood treatment plant and the toxic chemicals released therefrom.
- 89. In spite of Defendants' knowledge that much of the surrounding neighborhood would be affected by release of toxic chemicals, no information was ever disseminated to the public.
- 90. The Defendants made no effort to warn surrounding neighborhoods and the public of the nature of the disease or cancer causing emissions from their facility.
- 91. The toxic chemicals emitted by Defendants were persistent when creasured deposited in Plaintiff's home and environment so that Sebera Gayle Douglas continued to be exposed to them even after the time of emission.
- 92. PACTIV has a history of non-compliance with Alabama and the formula programment of Environmental Management (ADEM) regulations at the formula beckhart wood treatment facility.
- 93. PACTIV has a history of non-compliance with United States

 Environmental Protection Agency regulations at the Lockhart wood and the Defection treatment facility.

- L-P has a history of non-compliance with Alabama Department of Environmental Management (ADEM) regulations at the Lockhart wood treatment facility.
- L-P has a history of non-compliance with United States 95. Environmental Protection Agency regulations at the Lockhart wood treatment facility.
- At all times pertinent hereto, the Defendants PACTIV and L-P by 96. through their agents, servants, employees, or officers operated the wood treatment plant in such a manner as to cause the release of arsenic, further and pentachlorophenol, creosote, and their constituents which contained v. mmi acquedidum hazardous and toxic chemicals.
- The fact that Sebera Gayle Douglas was present at homes in various locations in the Florala/Lockhart area caused her to be exposed to toxic and/or hazardous chemicals or known or probable carcinogens released or produced at Defendants' wood treatment facility.
- The Plaintiff alleges that the exposure to the toxic or hazardous 98. waste originating from the Defendants' wood treatment facility proximately constanting

caused Sebera Gayle Douglas to suffer injuries and damages which proximately caused her death.

- 99. Sebera Gayle Douglas suffered from a disease that may be latent and not manifest itself until after a lengthy period of time afer exposure.
- 100. Sebera Gayle Douglas did not know and reasonably had no knowledge or way of ascertaining that her disease was caused by toxic chemicals originating from Defendants' wood treatment facility until a time period within two of the years of the date of the filing of this complaint.
- a tolling agreement and have agreed not to assert the statute of limitations the personal for any time that accrued during the time defined by the parties' tolling the agreement.

COUNT ONE

NEGLIGENCE

The companies

care and timely installation

102. Defendants had a duty to Plaintiff since the commencement of their operation and continuing to the date of this lawsuit.

- 103. Sebera Gayle Douglas was a foreseeable victim of the dissemination of toxic fumes and toxic waste into the air, soil and water which evaded the properties, homes and community in which Plaintiff lived for years.
- 104. The Defendants, their officers, directors, agents and employees knew or should have known with the exercise of reasonable care that their operations emitted toxic and noxious substances and particulates, or with the exercise of reasonable care should have known that the emissions would injure the health of the persons or public who lived near the Defendants' facility, including the Plaintiff.
- use due care to avoid injuring the Plaintiff.
- 106. The contamination of air surrounding Defendants' facility could be a substantially reduced by the exercise of reasonable care and timely installation of effective treatment facility air pollution and provided control devices and other state of the art methods.

when promise the castal Her

Detendants' failure

- 107. The Defendants negligent acts or omissions proximately caused Sebera Gayle Douglas to suffer injuries and damages which resulted in her death.
- 108. As a direct and proximate consequence of the negligent acts and omissions of the Defendants, their agents, employees and representatives, Sebera Gayle Douglas suffered injuries and damages which proximately caused her death.

COUNT TWO

RECKLESSNESS

- 109. The failure of Defendants, their officers, agents and employees and to prevent the contamination of air or soil or water in the Florala/Lockhartens is a violarea was wanton and exhibited a reckless disregard for the lives and health of the Plaintiff and persons in surrounding neighborhoods.
- acts of the Defendants Sebera Gayle Douglas suffered injuries and damages which proximately caused her death.

111. The Defendants' gross negligence, reckless and wanton acts and their reckless disregard for the safety of the Plaintiff and the public surrounding their facility entitles the Plaintiff to punitive damages in order to punish Defendants, to deter Defendants from such conduct in the future and to deter others from engaging in such irresponsible activity.

COUNT THREE

NEGLIGENCE PER SE

- air and their failure to cease the disposal or contamination of the ground are invention water and soil and the Defendants' failure to properly report their violations and toxic air emissions is a violation of the laws and regulations of the State was a force of Alabama.
- 113. As a proximate consequence of the aforestated negligence per personal seed of Defendants and their agents, employees and representatives, Sebera Sayan Gayle Douglas suffered injuries and damages which proximately caused her death.

COUNT FOUR

INTENTIONAL TORT

- 114. Defendants knowingly and intentionally failed to investigate fully and prevent sources of their off-site air contamination and failed to make any efforts to remediate the same so that injury to the Plaintiff and other persons was certain or substantially certain.
- 115. The Defendants' acts manifest an extreme indiferene to human life and created a risk of death or severe disease in persons exposed to the hazardous and toxic wastes of Defendants.
- 116. Defendants intentionally released toxic and hazardous chemicals into the air in violation of law.
 - 117. Plaintiff was a foreseeable victim of Defendants's wrongful acts.
- 118. As a direct and proximate consequence of the knowing and intentional acts of Defendants and their agents, servants, employees, or representatives, Sebera Gayle Douglas suffered injuries and damages which proximately caused her death.
- 119. Plaintiff further alleges that the Defendants were aware that the second was volume of wood treatment and production at the Florala/Lockhart wood

THE LEWIS OF THE PROPERTY OF THE PARTY OF TH

a cause of action for conspirar

treatment facility exceeded the facilities ability to treat and contain toxic wastes. Defendants refused to install and maintain effective pollution control devices because they knew that they would soon cease operations at the facility due to the fact that their lumber operations and the cutting of trees consumed the areas ability to produce merchantable timber.

- 120. Defendants did not use proper pollution control devices and disposed of toxic chemicals by burning in order to increase their profits.
- 121. The Defendants' knowing and intentional acts in violation of the laws of the State of Alabama entitle the Plaintiff to receive punitive and Defendants and to deter the Defendants from age and such conduct in the future and deter others from engaging in such irresponsible activity.

COUNT FIVE

TRESPASS

122. The Defendant L-P negligently, recklessly or intentionally caused or allowed hazardous toxic waste to touch and come in contact with the presentation of the Plaintiff without her knowledge or consent.

Proces from and dafracci Sta

and amount of their toxic erro

123. As a direct and proximate consequence of the negligent, reckless, knowing or intentional act of trespass by the Defendant L-P acting by and through their employees, agents and representatives. Sebera Gayle Douglas suffered injuries and damages which proximately caused her death.

124. As a result of the Defendants' knowing and intentional act of trespass or reckless trespass and their violation of Plaintiff's right to be free from touching and contamination by Defendants' toxic and hazardous substances the Plaintiff is entitled to recover punitive damages to punish Defendants, to deter the Defendants from such conduct in the future and deter others from engaging in such irresponsible activity.

COUNT SIX

CONSPIRACY

- 125. As a further and alternative ground for relief the Plaintiff asserts a cause of action for conspiracy.
- 126. At all times relevant, the Defendants L-P and PACTIV and others have conspired to violate the rules, regulations and laws not the State of Alabama.

- 127. The Defendants' purpose was to make increased profit and to defeat competitors by lower costs by not spending on proper pollution control and/or training.
- 128. The Defendants herein also knowingly and intentionally conspired to mislead and defraud governmental agencies and to conceal illegal and improper contamination emanating from their wood treatment facility in Lockhart, Alabama, in order to avoid any costs required with the clean-up and remediation despite Defendants' knowledge of risk to human health.
- 129. The Defendants have further conspired between themselves to conceal from and defraud State of Alabama regulatory agencies the nature and amount of their toxic emissions in order to avoid the costs associated to install proper pollution control devices or to make proper disposal of their hazardous waste.
- 130. In furtherance of their conspiracy or conspiracies, the wood or we Defendants committed an overt act or acts, including the acts described in this Complaint.

infusion and decembes which are

- 131. As a proximate and direct result of the knowing and intentional acts of the Defendants, Sebera Gayle Douglas suffered injuries and damages which proximately caused her death.
- 132. The Defendants' knowing and intentional act of conspiracy to violate the rules and regulations of the State of Alabama and to conceal their illegal discharge of toxic waste is such that the Plaintiff is entitled to punitive damages to punish Defendants, to deter Defendants from such conduct in the future and to deter others from engaging in such irresponsible activity.

COUNT SEVEN

PRODUCTS LIABILITY

- 133. The Defendants engaged in the sale of firewood to residents and persons in the Florala/Lockhart community.
- 134. The firewood or wood for use in home or stove fires sold by the bus hearth?

 Defendants included wood which had been treated with toxic wood

 treatment chemicals.

knownenna as i Two at workd be

a there were also to brother.

- 135. The wood sold by Defendants was burned by persons homes in the neighboring community in a foreseeable and intended use.
- 136. The Defendants were engaged in the manufacture and sale and placement of wood and wood products into the stream of commerce for commercial purposes.
- 137. The firewood sold by Defendants was defective and unreasonably dangerous when burned because it emitted toxic and hazardous waste products into the air.
- 138. As a proximate consequence, Sebera Gayle Douglas suffered injuries and damages which proximately caused her death.

COUNT EIGHT

FAILURE TO WARN

139. The Defendants failed to warn the Plaintiff and members of the public of the dangerous health aspects related to their respective operation and the by-products, air emissions and other toxic emissions that were released. Specifically, Defendants failed to provide the Plaintiff and other persons similarly situated and the public at large with warnings of dangerous

emissions resulting from their industrial wood treatment facility which was within the knowledge or obvious to the Defendants, but not obvious or known to the ordinary person.

- 140. The dangers include the fact that the Defendants' operation included emissions which were highly dangerous to the health of persons exposed to them and that they caused or contributed to the development of a wide variety of damages and injuries, including cancer.
- 141. The danger also included the toxic air emissions that Defendants caused.
- 142. Defendants further failed to provide Plaintiff and others with a Plaintiff knowledge as to what would be a reasonable, safe and sufficient protection, as an approximately there were any, to protect the Plaintiff and others from harm and life to ward threatening injuries as a result of exposure to the Plaintiff and others by the manney of Defendants' emissions.
- 143. The Defendants have negligently and recklessly failed and refused to warn and advise the Plaintiff and others similarly situated, including the public at large, of the dangers caused by Defendants' past emission of toxic chemicals which the Defendants knew or should have

168. PHYENDAM GULDOSE

Collinger to the season recover

known has endangered the Plaintiff and others by invading their homes, property, breathing zone, schools and the places that they occupy.

- 144. Despite their knowledge that their toxic emissions have contaminated the environment where Plaintiff lived, even at the present time the Defendants have failed to warn the Plaintiff and others.
- 145. Defendants' failure to warn took place before, during and after the Plaintiff was exposed to Defendants' toxic emissions.
- 146. Defendants' breach of duty to warn the Plaintiff of the dangers proposed by their exposure to Defendants' toxic emissions is a substantial contributing cause to Plaintiff's injuries.
- 147. As a direct and proximate consequence of the acts or omissions to and have and began and Defendants' failure to warn, Sebera Gayle Douglas suffered injuries and account damages which proximately caused her death.

COUNT NINE

SPOLIATION, DESTRUCTION OF EVIDENCE

148. Allegations in this count are based upon the Plaintiff's many above information, belief and reasonable investigation.

- 149. The Plaintiff contends that evidence, which may have been subject to spoliation, destruction or which was not kept or retained as required by law is not necessary for adequate proof of Plaintiff's claim. But, as an alternative, the Plaintiff asserts that the Plaintiff is entitled to a shifting of the burden of proof on all of Plaintiff's claims and causes of action for the reasons set out below.
- 150. At all times pertinent to this Complaint, Defendants created, stored and disposed of toxic and hazardous waste and chemicals which were regulated by state law.
- 151. Defendants were required by law to maintain written records of their disposal of toxic and hazardous chemicals.
- 152. Defendants were required by law to maintain written records of the lemission their airborne emissions of toxic and hazardous chemicals.
- 153. Defendants disposed of toxic and hazardous wastes by burial, dumping into adjacent creeks or ditches, burning, spraying into the air or and decimal injection into smoke stacks.
- 154. The Plaintiff avers that the Defendants had a duty make and maintain their written records of toxic and hazardous chemical emissions.

- 155. Plaintiff avers that the Defendants had a duty under the law to keep records of all toxic and hazardous chemicals which they stored on their premises.
- 156. Plaintiff avers that Defendants were required by law to keep written records of any hazardous waste which they disposed of either on-site or off-site.
- 157. Defendants L-P and PACTIV had actual knowledge of the pending or potential litigation which would be filed against them by Plaintiff and others.
- 158. Plaintiff further avers that the Defendants intentionally violated and the laws of the State of Alabama by failing to provide writtenfrecords and winate correports of their illegal emissions of toxic wastes.
- 159. Plaintiff is entitled to a presumption that the Plaintiff would receive the make a recovery in this action but for the spoliation, destruction or failure to the to maintain evidence and documents that the Defendants were required to their toxic create under the laws of the State of Alabama.

ereisions which occurred owns

160. The Plaintiff is entitled to a shifting of the burden of proof under the substantive law of the State of Alabama because of spoliation of evidence.

COUNT TEN

HOMICIDE

- 161. Defendants violated the criminal statutes of the State of Alabama because; under circumstances manifesting extreme indifference to human life they recklessly engaged in conduct which created a grave risk of actions and death to other persons.
- injuries which resulted in her death.
- 163. Plaintiff alleges that both Defendants exhibited an extreme indifference to compliance with environmental regulations and to the potential effects of their toxic waste.
- 164. Plaintiff does not seek to punish Defendants for their acts or omissions which occurred outside of the State of Alabama or which did not recognise.

cause damages in the State of Alabama. Any reference to those acts is only for the purpose of demonstrating Defendants' intentions and notice.

- 165. Defendants' conduct at their headquarters and by their management at their headquarters contributed to cause the injuries described in this Complaint.
- 166. The intentions of the Defendants upper level management can be inferred from their actions or inactions in Alabama and nationwide. These acts or omissions have resulted in voluminous complaints, citations, and governmental actions and a felony conviction.
- 167. The manifestation of extreme indifference to human life by Defendants is so severe that an award of punitive damage should be sufficiently large enough to accomplish the purpose of the Alabama Wrongful Death Statute and to adequately punish Defendants for their felonious wrongdoing.

WHEREFORE, PREMISES CONSIDERED, Plaintiff demands judgment against Defendants for punitive damages to be determined by the trier of fact and costs.
